Recycling Waste to Moulded Pulps

[www.apexpulp.com](http://www.apexpulp.com)

## ABOUT US

Headquartered in Singapore for engineering design, research and development, we manufacture moulded pulps in Malaysia.

Using innovative techniques and advance production processes, our moulded pulps are stackable, lightweight, robust and waterproof, sustaining eco-friendly environment with biodegradable and compostable recycled raw materials.

We produce moulded medical utensils for hospitals and nursing homes, moulded food grade trays for food and beverages industries, moulded protective packaging materials for electronics sectors.

Our plant is sited on a one acre land with 3-storey high facility manufacturing moulded pulps. It is conveniently located along the Straits of Johor, an International straits in Southeast Asia between Singapore and Peninsular Malaysia. Conveniently located and ideal for both local and international freights via Johor Port or Port Tanjung Pelepas (PTP).

If you are looking for moulded pulps for your applications, we have the right solution for you!

# APEX MEDICAL PULP PRODUCTS
